Student & Observation Details

Student: _____

Observer: _____

Week of: _____

Setting: _____

Target Behavior Definition

Legend

How to Mark the Grid

Use a quick code in each cell to show intensity.

Blank = no occurrence

L = low occurrence

M = medium occurrence

H = high occurrence

Add short notes when schedule changes or unusual events may explain the pattern.

Weekly Scatterplot

Time Block	Mon	Tue	Wed	Thu	Fri	Notes
8:00-8:30						
8:30-9:00						
9:00-9:30						
9:30-10:00						
10:00-10:30						
10:30-11:00						
11:00-11:30						
11:30-12:00						

Pattern Summary

- Behavior clusters around one part of the day
- Certain days are consistently higher

- Pattern appears tied to one activity or setting
- Setting events or schedule changes explain spikes

Most likely pattern and next data step

See Patterns Without Guesswork

Classroom Pulse turns raw observation data into trend views so your team can confirm the pattern instead of debating it.
