

Setting Events Tracking

Identify factors that influence behavior

classroompulse.io

Understanding Setting Events

Setting events are conditions that make a behavior more or less likely to occur. They don't directly trigger behavior but set the stage. The same antecedent may lead to very different behavior depending on setting events.

Student Information

Student: _____

Week of: _____

Daily Setting Event Checklist

Mark all that apply each day:

Setting Event	M	T	W	Th	F
Poor sleep reported	&	&	&	&	&
Missed meal/hungry	&	&	&	&	&
Medication change/missed	&	&	&	&	&
Illness/pain	&	&	&	&	&
Home stress reported	&	&	&	&	&
Conflict before school	&	&	&	&	&
Schedule change	&	&	&	&	&
Substitute teacher	&	&	&	&	&
Peer conflict earlier	&	&	&	&	&
Sensory overload	&	&	&	&	&

Behavior Frequency

Day	Setting Events Present	Behavior Count	Notes
Monday			
Tuesday			
Wednesday			
Thursday			
Friday			

Pattern Analysis

After 2-3 weeks, look for patterns:

- Does behavior increase after specific setting events?
- Which setting events have the strongest correlation?
- Can any setting events be prevented or addressed?

Patterns Observed

Prevention Strategies

Based on patterns, we can:

Automatic Pattern Detection

Classroom Pulse tracks setting events and automatically identifies correlations with behavior.
